DETAILED ACTION

Response to Amendment

1. According to the Amendment, filed 21 December 2010, the statuses of the claims are as follows:

Claims 100-125 are new; and

Claims 1-99 are cancelled.

Election/Restrictions

2. Newly submitted claims 100-125 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Original Claims 14-68 and 80-90, classified in class 600, subclass 507, and the New Claims 100-125, classified in class 600, subclass 544, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination, new claims 100-125 has separate utility such as detection of stroke in a subject. See MPEP § 806.05(d).

Restriction for examination purposes as indicated is proper because the above inventions are independent or distinct for the reasons given above and there would be a serious search and/or examination burden if restriction were not required because the following reasons apply:

- (a) the inventions have acquired a separate status in the art in view of their different classification;
- (b) the inventions have acquired a separate status in the art due to their recognized divergent subject matter;
- (c) the inventions require a different field of search (for example, searching different classes/subclasses or electronic resources, or employing different search queries);
- (d) the prior art applicable to one invention would not likely be applicable to another invention;
- (e) the inventions are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 100-125 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. Since claims 100-125 have been withdrawn from consideration, and all other claims in the application have been cancelled, no further action by the Examiner is required.

Response to Arguments

4. Applicant's arguments, see Remarks, pp. 7-8, filed 21 December 2010, with respect to the rejection of claims 14-68 and 80-90 under 35 U.S.C. 102(b) as being anticipated by Hovland, U.S. Patent No. 6,015,393 A, have been fully considered, but are moot in view of election by original presentation discussed above.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to NAVIN NATNITHITHADHA whose telephone number is (571)272-4732. The examiner can normally be reached on Monday-Friday, 9:00 am - 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor, II can be reached on (571) 272-4730. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
